Among freemen there should be no masters but justice and duty and love of right and fellowman.

PALESTINE, TEXAS, OCTOBER 7, 1905.

THE umbrella is oftener laid up for a rainy day than money.

If your store is advertised in a small way, people will grow to consider it a small store.

THE poverty-stricken book-writer is satisfied it is easier to write books than find a publisher for them.

A GEORGIA man committed suicide because he saw his wife's picture in a patent medicine ad. Perhaps she had acquired the Peruna habit.

THE occasional advertiser realizes that his plight is, "Out of sight, out of mind." It is the man that keeps everlastingly at it who succeeds.

If you have a want or want a want, you will often get good results through a short ad in the want column. It is inexpensive and has far-reaching powers.

THEY will keep on airing that Panama canal question until they unearth some tall graft there. It is bound to come, in the estimation of many, because it is there.

THE circuses have cut out the parades. If they should decide to cut out the red lemonade, too, it would no longer be a circus as we knew them when a boy. Hang these innovations, anyway.

It is reported a lake of whitewash has been discovered in our new Eastern possessions. A good large quantity of that article will likely be needed right here in Texas before the next state campaign is over.

Busy days for merchants come as a direct result of advertising. That is the experience of all who have tried it. And the advertising that is made through the newspaper of known circulation is the most profitable of all advertising.

It is not advertising space so much as what you put in it that counts. Some advertisers can make a small space yield a large return on the investment. There are others who cannot make a big advertisement yield what it cost to buy it.

PALESTINE business men are very much elated over the success of their first sales days. The "Holy City" was full of people who flocked there from every direction, and upward of 200 bales of cotton were marketed. Palestine business men are to be highly congratulated upon their enterprise and get up.—Grapeland Messenger.

COLLIER'S WEEKLY is making a hot fight on patent medicines, and denounces them as the great American fraud. There is no doubt nine-tenths of them are a fraud all right, and absolutely harmful. One of these days the country is going to enact some drastic legislation, regulating this evil. The sooner the better for humanity.

THE learning that most boys gain from books comes early in life. They gain wisdom and experience by the knocks they get and the hardships they suffer after the school books are put aside. The trouble with most boys, and the greatest obstacle to success, is that they quit school too soon. The value of the man is determined very largely on the amount of book-learning he gets while young, and on the home training he receives. Parents should not turn the boys loose too soon.

THE newspaper is a wide field and full of roses and thorns. When you

roast the preacher the ungodly smiles; when you roast the ungodly the preacher smiles. If you roast the saloon man the teetotaler smiles; when you roast the teetotaler the saloon man sets 'em up. If you swear, you are a wicked man, and if you pray you are a hypocrite. If you have an opinion you get cussed, and if you don't you are a nonentity. The preacher knows one thing, the saloon man another, but the journalist is expected to know everything. He is the best and the worst man in the community.—Stephenville Empire.

WHAT is true of Lufkin is true of most any town in Texas. And being true, the evil should be remedied. The Tribune says:

There is a gang of worthless, idle negroes continually loafing around the streets of Lufkin, and any day or almost any hour of night they may be seen laying around some negro restaurant or dive or in bunches at the rear of some saloon indulging in loud talk and showing every sign of being as content and happy as a hungry pig at a swill barrel. It is said they live in most part by gambling, depending solely on fleecing the unsuspecting darkey who works, out of his earnings. It is just this class of low-down, good-for-nothing coons who are committing many of the nameless crimes that are being recorded throughout the country, and if these worthless cusses are permitted to hang around Lufkin continually, they are likely to fall in line with some of the other black brutes and commit a crime that will cause a lynching. If you wish to insult one of these imps of satan just ask him if he wants a job working. He at once becomes highly indignant at the nerve displayed by the interrogator. The city should have the most stringent vagrant laws that can be enacted, and every one of these burley rascals should be made to leave town, go to work or suffer the full penalty of the law.

## Resolutions of Respect.

"To live in the hearts we leave behind is not to die."

Whereas, God in His infinite wisdom saw fit to remove from our midst our beloved sister, Esther Lucas, who departed this life Sept. 15th, 1905, and

Whereas, our departed sister was and had been a faithful member of the Ladies Auxiliary, Temple Beth Israel, therefore

Resolved, That we deeply feel the loss of our sister and friend, and while consolation may come to us in the knowledge that she has gone to her eternal home, where is neither sorrow nor pain, where death is not permitted to enter where God is, yet would we at this time, turn a moment aside to lay upon her tomb a wreath of God's purest flowers, entwined with loving memories that shall live forever.

Resolved, That we tender to her bereaved relatives our sincere sympathy in this, their hour of bereavement at the loss of one who was a devoted wife, mother and sister.

Resolved further, That a copy of these resolutions be spread upon our minutes, and a copy be sent to the family and published in our daily papers.

MRS. M. HALPORN, Pres.,

MRS. THEO. ASH,

MRS. M. WINNER,

MRS. A. M. RICH,
